### DETAILED ACTION

1. Claims 1-6 and 8-14 are allowed.
2. The following is a quotation of the second paragraph of 35 U.S.C. 112:  

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 7 and 15-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 7 is indefinite because it depends from itself. Claim 15 is indefinite because it recites "a plurality of vessels" without any correlation to the "vessels within the gas purifying system" previously recited in claim 10. Claim 16 is indefinite because there is no direct antecedent basis for the recitation of "the speed of rotary valves in the PSA unit", as no such valves were previously claimed as part of the PSA unit. Claims 17-20 depend from indefinite claim 16 and are indefinite for that reason.
4. Claims 7 and 15-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
5. The references listed on both the PTO-1449 and the PTO-892 show art of interest only, over which the claims define allowable subject matter.
6. Applicants' response to this Office action must also include the following editorial changes: on Fig. 1, provide a description of number "64"; para. [0015], line 6, provide the serial number and filing date for that application; and in para. [0023], line 1, "figure" should be "Figure".
